GANGI: World Premier

THE POCKET WATCH OF THE 21ST CENTURY

Gangi brings innovation and creativity in watch and jewelry creation

PASQUALE GANGI, the owner of Swiss watch **CREATION: Gangi**, is offering a huge variety in opulent watches especially for upper class; these **MODERN** watches are made with precision. This ultra-precision has now been perfect by Gangi after 20 years of product research and development at his **ATELIER** and introduced into his elegant watch ranges. This is precision in watch making that the world thought is long forgotten.

He is not only the pioneer in bringing innovative ideas in watch and jewelry creation but he has an established name as a researcher that how a company gets a successful manager.

According to Pasquale Gangi, "The question I get most often is, 'How do you intend to move this company forward?' I do not only grow your company, I strategize the best way to make your company grow, get consumers aware of your brand or product and also work with every worker in this company for a better success."

Pasquale Gangi has worked in various institutions and companies, and has 30 years of managing experience ranging from **PRODUCT MANAGER** and **DIRECTOR** to his current position as Owner and Innovator of **GANGI**. With unique and innovative idea in watch making, the company is stepping forward in global market under the management of innovative Gangi.

What makes these watches so unique in the complete artistry that is used in every single creation. Time is of the essence in creating elegance, and this is why a new era in time keeping was introduced. What differentiates **GANGI** watches from others is the **MECHANICAL** movement. This is the essential component of a watch made with passion - precision. The most advanced software was used by technicians in creating the new construction process, which enabled full optimization of the only production line - mechanical caliber with **5 DAYS POWER RESERVE**. Gangi has worked hard in maintaining the difference and uniqueness in these watches and jewelry items.

Pasquale Gangi, a native of Italy.

Scacco Matto GMT3

The Pocket Watch of the 21st Century

Alexandra Kosteniuk, the Russian 12th World Chess Champion and Pasquale Gangi, Italian creator, combine to give birth to a big premiere in watchmaking, an object of art which is at the same time a pocket watch GMT 3 Time Zone and a system of timing of games of chess.

Scacco Matto GMT3, Checkmate, The watch imagined by Pasquale Gangi got its name since it is directly inspired from the world of finance for its time zones and of from the game of chess. It was born from a meeting between the young Queen of worldwide chess, who was looking for an original present for a Russian personality, and the Italian creator, originator of innovative plans.

Next to traditional and well established watchmaking, there is always place for a creative adventure! Strong in this conviction, both associates manage today to surprise us with their totally new concept, based on a mechanical movement with manual, double barrillet reassembly: a pocket watch GMT3 with three time zones, adjustable retrogressive date by a mono-tapped and indication of the power reserve (120 hours), linked to a system of timing of games of chess, patented. Entirely conceived, developed and produced according to the criteria of the high Swiss watchmaking.

The aesthetics of the chosen materials, titanium for the first edition, nothing was left aside for the manufacture of the Scacco Matto GMT3, to result in the creation of an object never seen before, impressive, powerful, and charged with emotions.

"The world of chess fascinates me. It demands countless qualities from its supporters. It is made at the same time of reflexion and strategy, subtlety and boldness, patience and brutality. It is linked to the world of the powerful, of the leaders. To be able to control a chess game, is to be the master of time! That is what we wanted to express in Scacco Matto GMT3", "I am delighted of the collaboration with the Queen of Chess, who represents at the same time beauty, youth and intelligence, which are qualities which fit perfectly our exclusive and innovative creation" comments Pasquale Gangi.

Every single piece is unique, is signed Gangi and Alexandra Kosteniuk.

Gangi & Technotime

Takes Third Place in the "TOURBILLON" Watch Category

Gangi & Technotime - The test of time.

On the evening of October 20th 2011, the second edition of the Chronométrie International Timing Competition celebrated technical expertise and reliability by unveiling the winners of this demanding competition, The "alternative" movement-maker Technotime took third place on the winners' podium - in the prestigious "Tourbillon" watch category - with its hand-wound in-house made Calibre G-T12.

Facing up to the stern trials of the Chronométrie competition is in itself a token of audacity and confidence. The audacity to expose a model to the drastic and unequivocally objective criteria of a competition that is universally acknowledged for its neutrality; and the confidence that its calibre will stand up to three batteries of shock tests and to magnetism-resistance test imposed by the Haute Ecole Arc, all validated by the Besaçon Observatory and the Swiss Official Chronometer Testing Institute (COSC). This bold challenge was brilliantly taken up by first-time contestant Technotime.

The Challenge

Gangi & Technotime won third place in the "Tourbillon" watch category behind Greubel Forsey (1st) and Chopard (2nd). While developed with far more modest means than its peers, Calibre G-T12 distinguished itself by the regularity of its rating. Fitted with a 60-second tourbillon and a twin barrel ensuring a five-day power reserve, this calibre proudly takes its place as one of the most resistant and accurate in Switzerland.

Tourbillon Americana

X- Treme Americana

Tourbillon Rainbow

The Tourbillon Rainbow model is a true jewel in the forefront of watchmaking art. Recognizable by its distinctive dial with solid colors that can be adapted to everyone, this unique and hand-made watch embodies a dynamic and lively spirit.

Tourbillon Rainbow with Roman Numerals

This watch is an elegant and submarine-like watch with its lapis lazuli dial, an allusion to the emblematic underwater and deep ocean world. This model comes with roman numerals. It can also be adapted in different other colors according to your preference.

Tourbillon Jeans Vintage

The original and trendy design of the Tourbillon Jeans Vintage watch is what makes it so unique. This watch is subtly designed with handcrafted jean and sewing details. Many designs are available such as military, black & white, red & black...

Tourbillon Gattopardo

Gangi's feminine watch, the Tourbillon Gattopardo, is the first women's version of luxury watches with leopard patterns all over it. It is bringing the timeless elegance and functionality of Gangi's watches to a smaller size perfectly suited to a lady's wrist. Many other patterns are available such as python, psychedelica, xtasy...

Aeternitas

This Aeternitas watch has a dial featuring a distinctive black dial with a red skull, making us think about the universe of gothic art. It is the perfect watch for a biker on his Harley Davidson or a rock musician. Many other patterns are available like the hippy watch or the Perla watch with its pearl dial.

Model Carbone

This watch was designed to meet the demands of professional racing drivers. It is a real icon in the high-performance world of motorsport. It features the color black associated to many other colors like red, blue or green.

Grand Prix

Gangi is introducing its watch Grand Prix in purple, green, or blue. These versions are fitted on the innovative World-map like dial, reminding us of the three dimensional map of the globe. The dial can be set with stones or rubber.

HALCYON
TR2 MAC

Jan 16

Grand Prix - Purple Variant

This is a purple variant of the Grand Prix model. It can be set with stones or rubber or both at the same time, according to your preference.

Grand Prix - Luminescent Green Variant

This is an original and stylish luminescent green variant of the Grand Prix watch. It can be set with stones or rubber or both at the same time, according to your preference.

Ligne Coeur

The Ligne Coeur by Gangi is the modern archetype of the fashionable woman watch, thanks to aesthetics and functions that transcend changes in fashion. Aesthetically, it comes in pink with a pink bracelet. The dial is set with luxurious stones such as ruby, sapphire, quartz or diamonds adaptable according to your taste.

Ligne Coeur

This model of the Ligne de Coeur is Gangi's luxurious jewelry watch. This watch is featuring softly curved lines characterized by uniquely rich dials and exquisite gem settings of diamonds. The number of diamonds sets can be chosen and it comes with a bracelet or as a pendant.

Tattoo Watch

The tattoo watch is the ultimate legend among every tattoo lover, biker and free spirited individual. This Watch features for the first time, an original dial with unique tattoo designs.

Année du Coq

The elastic, soft, and highly malleable made by Gangi watch specially designed to commemorate the Chinese year of the rooster. This model is unique and comes in a sober look, featuring the colors of black, white and red.

Kaleidoscope

The dial is the distinctive face of the Kaleidoscope watch. This watch's aesthetics can fool the human eye, guaranteeing impeccable beauty. It comes in the classical Black and white colors, with a bracelet or as a pendant.

Arabic Numbers

This model made by Gangi is recognizable through its big Arabic numbers. It is a sober looking watch, with a Black & White look. It can be worn as a bracelet watch or as pendant.

Tourbillon EuroFoot 2016

Gangi is introducing a new model in its collection, the Tourbillon Eurofoot 2016, featuring an exclusive display of the event of the Euro foot 2016. There are also watches featuring the participating countries' maps in addition to the American map available.

X-Treme Americana Carbone

X-Treme Americana Sapphire

X-treme Americana was designed to meet the demands of professional racing drivers. It features a power reserve indicator, 120 hours and a retrograde date in red, white and grey. This watch is an icon eternally joined to the high-performance world of motorsport. It comes in a carbon or a sapphire frame.

X-Treme Araby Carbone

X-Treme Araby Sapphire

Still in the world of racing, the X-treme Araby has a power reserve indicator, 120 hours and a retrograde date. It comes in the colors black, red and white and in sapphire and carbon versions.

Springer System

This innovative system made by Gangi uses springs in tubes which makes all watches adjustable as a bracelet or as pendant without the help of any external tools. It is a simple and creative system that gives more flexibility and freedom to style your watch and wear it the way you want.

Chain

This is the typical chain that you can use to wear every watch made by Gangi as a pendant. It is customizable according to your own choice. We can add the gemstones and colors that you prefer to make it your own.

Escale 1:1

Here are the two size models for all watches. The smaller one (Standard) would suit the smaller or feminine hands and the one on the left (Grand) would be perfect for larger sizes.
